# TYRONE STORMWATER NEWS UPDATE

## FALL 2019

BRAD KONWICK, ENVIRONMENTAL  
DEPARTMENT

Have you every wondered about the water quality in our local waterbodies? There is a volunteer based program at the State, called Adopt-A-Stream, which encourages individuals and communities to monitor and improve sections of streams through several levels of involvement. Please see the [linked website](#) for more information on water quality results near you and how to get more involved in the program.
