
TYRONE STORMWATER NEWS UPDATE

SPRING 2019

BRAD KONWICK, ENVIRONMENTAL
DEPARTMENT

"Dammed if you Don't"

That is not a typo, we are referring to dams. The latest numbers indicate there are 4,592 dams in Georgia, of which 87 are in Fayette County. The main issue is the age of these dams and the cost to maintain or rehabilitate them, estimated to be \$70 billion for all the dams in the U.S. Thus, the headline of this article if dams are not properly maintained. Tyrone is also dealing with this issue currently, navigating the cost of bringing a local dam into compliance. [Here](#) is more info on the subject.
